RE: Retirement filing-terminate employment-applications

To Whom it May Concern:

Enclosed please find applications for food stamps and dc medicaid. As I have never received any response to the 3 renewal applications submitted June 2023, I have done without insurance. Moreover, this lack of medication for glaucoma has caused significant effects including: further erosion of vision, resulting in my current eyeglass prescription being of little use. Additional ramifications include an 8 month long migraine, and being forced to forfeit my license as the glaucoma was going untreated.

Should there have been any insurance in place through this period it was unknown/ unaccessed. Furthermore, any and all charges during this period should be considered fraudulent.

I am remitting both applications under the MAGI formula, which does not consider assets. If this method cannot be used I am requesting information about any associated previous disbursements-ie trusts, be provided to me. If there is an involvement of long term care, I am requesting any services be delivered via an assisted living facility, not a group home or private setting. Please provide me with confirmation on which method is used for these applications. For reasons too numerous to mention, I am also requesting that this matter not be referred to outside agencies.

I have also filed for social security early retirement. I have not received the official amount, but have included the estimate I recently requested.

If an appointment is required I am available anytime, as I have retired from employment at Spartan. I do have 2 upcoming appointments that I am requesting be scheduled around:
One June 14 for jury duty, the other June 20 with social security. [early retirement]

Sincerely,

Thomas A Lambert
